

No Mask. No Problem®. Mask-Free NIV®

Join Dr. Aisha Terry to discuss a mask-free alternative to non-invasive positive pressure ventilation (NiPPV). During this talk, Dr. Terry will:

- Review data from a multi-center RCT demonstrating high velocity therapy as noninferior to NiPPV
- Describe applications and potential impact of high velocity therapy in the Emergency Department
- Detail the mechanisms of action of high velocity therapy

Observation Medicine Science & Solutions Conference

Thursday September 17, 2020

2:30pm-3:30pm

Live Virtual Presentation

Presented by Aisha Terry, MD

Emergency Physician

George Washington University Hospital - Washington, DC
